英文面试资料

（1）主要内容

Good morning/afternoon, teachers, I am honored to be informed to have this interview.

①Introduce yourself

First let me introduce myself, my name is XX, 23 years old, and David is my English name. I am open-minded, easy to adapt, compatible with my friends, and willing to help others.

②Introduce your college

I studied in XX University. Although it is not well know, I still appreciate it, because it offers me a chance to develop my abilities. During my college years, I have made rapid and great progress in many areas, as a student, I work very hard, and obtain scholarship many times, as a monitor, I work earnestly, also gain good comments from teachers and classmates, working as a member of Student Union, I strive to finish any assignment perfectly. In a word, I learned a lot in my college life.

③Introduce your family

In my family, there are three members, my farther, my mother, and I. My parents are workers, my father works very hard, and he is always fully occupied, so most of the housework is done by my mother, of course, while I am at home, I would help her. I love my parents and they love me, too. When I make a success, they are more excited than me, and support me to do better. Even though I failed, instead of blaming, they always share sorrow with me, and encourage me not to give up. During my preparation for graduate examination, the support from my family is always my momentum. Parents' love is unselfish, I am deeply affected, so I will do all what I can to repay them.

④Introduce your hometown

My hometown is XX, a young city in XX Province. It is famous for its XX and XX. There are great scenes here, XX, XX, XX, and so on. Each year, many people come here for tour and investment. So I believe that, with the joint efforts of every person, a better future of XX is coming (round the corner).

⑤Introduce your reason for preparing the postgraduate exam

During the past four years, I have learned a lot of professional knowledge and practical skills, but gradually, I realize it is not enough. In my opinion, further studyis actually urgent for me to realize and finally achieve self-value. Life is precious, it is necessary to catch any opportunity for self-development, especially in the competitive modern society. Therefore, I prefer to go on for further education.

⑥Why do you choose to study in our department?

I am deeply impressed by the academic atmosphere when connecting to the web site of your department. In addition, I am attracted by the process of XX, and want to do something for XX. As the proverb says ‘process is the activity of today and the assurance of tomorrow.’ If I got a chance to study here, I would like to continue to accept professional training, in order to get ready for working in the future. I hope I can achieve my goal soon.

⑦About your future plans:

What do you expect to achieve during your study if you are enrolled into this institute?There must be many things to learn if I were enrolled into my ideal research field. I hope I can build up a systematic view of XX, especially in the fields of XX. Sincerely, my wish is to get a complete comprehension of XX. On the other hand, I am dreaming of the participation of some relevant projects of my major, for this reason, I will get more experience in practice. And what’s more, I expect to continue my study for doctorate degree, if it is possible. In a word, I am looking forward to making up a solid foundation for future profession which is based on three years of study here.

⑧Do you have any hobbies?

In my spare time, I like reading books, collecting cards and coins, playing volleyball, communicating with friends, and so on.

I also like English very much, I am fond of watching English films and listening to English songs, I passed College English Test Band six in September, 2003, I do believe there is still a long way for me to learn English well enough, however I will not shrink back, Because I realize that English is a bridge connected our country with the outside world. Learning English is the most direct and available method for intercourse among countries and also useful for us to get advanced knowledge and technology from other nations.

（1）参考模板

Good morning/afternoon, my dear teachers (my dear professors). I am very glad to be here for your interview. My name is ___.I am ___ years old. I come from _____, a very beautiful city. My undergraduate period will be accomplished in _____university in July, 2009. And now, I am trying my best for obtaining a key to _____ University.

Generally speaking, I am a hard-working student. I will try my best to finish it no matter how difficult it is. When I was sophomore, I found web design very interesting, so I learned it very hard. To weave a homepage for myself, I stayed with my personal computer for half a month, and I am the first one in my class who own his homepage. Furthermore, I am a person with great perseverance. During the days preparing for the first examination, I insist on running every day, no matter what the weather

was like. And just owning to this, I could concentrate on my study and succeeded in the end.

Well, in my spare time, I like basketball, tennis and Chinese chess. Also, English is my favorite. I often go to English corner to practice my oral English on every Thursday, and write compositions to improve my written ability. But I know my English is not good enough, I will continue studying.

Ok, that’s all, thank you for your attention.
