1. 自我介绍

Tell me about yourself in English.

自我介绍的模版我建议是背景介绍✦英语能力✦科研经历✦获奖情况✦未来感兴趣研究方向✦结尾。

注意自我介绍一定不要假空大话，主要体现自身的干货。

背景介绍：My name is (). I come from (which university). My major is (). My GPA is (), ranking the top in my major.

英语能力：I command a high level of proficiency in English. I got (score) in CET-6/TOEFL/IELTS.

科研经历：(如果只有一个，就讲一个，如果有两个以上的科研经历，挑两个最值得讲的讲一下)

I conducted a painstaking research on (你的科研题目), the research mainly studies (科研内容，两到三句介绍). Based on this research, I published a English/Chinese paper in (期刊) / I applied for a patent.

I also did a study on ... (同上)

获奖情况：

讲一些省级以上的获奖或是可以反映你学术水平的获奖，其他小奖不提也可。

I participated in ..., competition and won the first/second/third prize. / I was rewarded as the model student/ advanced individual/ outstand student cadre.

未来感兴趣研究方向：

I am interested in ..., because.. (介绍下你感兴趣的领域目前的研究现状，你对它的认知。)

结尾：

xx university is always my dream school, so I cherish the sincere hope to be a young scholar here.Thanks for listening!

2. 介绍大学

Tell something about your university.

我本科学校是 ()，她…… (具体可参考学校学院官网)。

我的本科学校这几年给予了我很多很多，不仅让我从一位懵懂的大一新生成长成为一名有明确职业规划的保研学子，而且更坚定了我为社会奉献自己螺丝钉力量的信心。不仅让我夯实了专业基础，学到了知识，而且教育我对学术要有端正的态度。

My undergraduate college is ().

My undergraduate college has given me a lot in the past few years, which not only made me

grow up from an ignorant freshman to a student with clear career plan, but also strengthened my confidence in devoting to the society; not only laid a solid professional foundation for me and passed on knowledge to me, but also taught me to hold a proper attitude towards the academic.

3. 介绍专业

Tell me something about your major.

如果您没有跨专业：

我是科班出身，本科和保研都是（ ）专业，通过大学 4 年对**专业学习，发现我更加喜欢这

个专业，所以决定保研时毫不犹豫的选择了本专业，研究生期间更愿意深入研究**，并期待有所创新，希望在导师的指导下发表高质量论文

I have received professional training, for my undergraduate major and the graduate major I pursue for are both (). From four years of () study, I find that I like it more now. Therefore, I choose it as my graduate major without hesitation and I'm willing to do further research on () with expectation of innovation. I hope I can publish papers of high quality under the guidance of my instructor.

跨专业考生：

理工科跨文科：

我本科专业是（ ），保研专业是（ ），我之所以理工科跨文科，因为数量分析对经管类的研究越来越重要，四年理工的研习培养出我注重条理逻辑和追究方法步骤的这一理工科思维习惯，而随着管理学等人文学科的进一步发展和研究的深入，需要相当的数据支持已是方向之一，那么严谨的理性思维便可为发散浪漫的人文体验提供理论支持和逻辑化规范。

My undergraduate major is () and the graduate major I choose is (). The reason why I jump to humanities from science and engineering is that data analysis is more and more important in research on economy and management. Four years of science and engineering study has cultivated my thinking habit which emphasizes logic and research procedure. With further development and in-depth research on humanities like management, the need for data support is one of the future directions. In this way, precise rational thinking can provide theoretical support and logical norms for romantic human experience.

工科理科之间相互跨：

我本科专业是（ ），保研专业是（ ），我之所以理工科跨文科，因为我们本科学校每门课程都会有相应的实验或课程设计，培养了我较好的动手能力，这对我读研是必不可缺的！四年理工的研习培养出我注重条理逻辑和追究方法步骤的这一理工科思维习惯，再加上我个人对**专业的兴趣，严谨踏实的性格特点，相信我一定能很快适应新专业。

My undergraduate major is () and the graduate major I choose is (). The reason why I jump to humanities from science and engineering is that each of my undergraduate courses had corresponding experiments or course design to cultivate my good practical ability, which is essential for my postgraduate study. Four years of science and engineering study has cultivated my thinking habit which emphasizes logic and research procedure, and with my

personal interest in () major and strict pragmatic personality, I believe that I can adapt to my new major quickly. (不要只提你会抓紧时间去学习新东西, 太空, 要罗列你本科的积累对研究生新专业的具体作用) 比如工科跨考金融: 本科期间良好的数学基础为研究生期间做金融数据分析提供保障 solid mathematical foundation during undergraduate years guarantees data analysis of finance in postgraduate study 外语跨考其他专业: 本科期间良好的英语基础为未来研究生生涯查阅外国文献提供可能 solid English foundation during undergraduate years enhances the ability to consult foreign literature in postgraduate study 文科方向跨专业:

本科阅读的大量专业经典书籍, 查阅文献、归纳、总结、创新的能力为研究生期间写高质量的论文打下扎实的理论基础。 Lots of reading of classical books during undergraduate years, the ability to consult literature, to conclude, summarize and innovate provides solid theoretical foundation for high-quality paper-writing in postgraduate study 虽然我是跨专业学生, 四年一直密切关注**专业, 课余时间经常到图书馆查阅资料的经历, 对

**专业情有独, 我相信, 凭借我的勤奋和学习能力, 这一定不会成为我读研的障碍。

Although I'm pursuing for a different major from my undergraduate study, I have paid close attention to () major for four years. I often spend my spare time consulting literature in the library and show special preference to () major. I believe that with my diligence and ability it will not be an obstacle in my postgraduate study.

4. 为什么读研?

Why do you want to become a postgraduate?

学术追求: Academic pursuit. Four years undergraduate study found my interest and also laid a solid foundation for me in this field. I want to further enhance myself during postgraduate study.

更有竞争力: Enhance my competence for finding a better job in this competitive society. Three years postgraduate study can enlarge my experiences...
